D	AQUAXYL™	1.50%
	Phenoxyethanol and Ethylhexylglycerin	0.70%
	Caprylyl glycol and Ethylhexylglycerin	0.30%

E	MADECASSOSIDE	0.20%
	Pure Water	2.00%

With **wesOURCE**

White Cream / Packaging: Jar

pH: 6.1 / **VISCOITIES:** **1M** at RT: 29 800 mPa.s Brookfield LV3-6 / **Recovery at RT (after 1M at 45°C):** 28 700 mPa.s Brookfield LV3-6. **STABILITY:** Stable M1 at RT, 45°C, -18°C and cycles -5°C/+40°C.

PROCEDURE ADVICES / Weigh ingredients of phase A and heat to 80°C. Disperse SOLAGUM™ AX in water and heat phase B 80°C. Pre-disperse phase C in phase A, add phase B into phase A+C, homogenize it by Silverson at 4000 rpm for 5 minutes. Stir the emulsion under anchor stirring 100 rpm and gentle cooling. Mix phase E until clear. Add phase D and E into the emulsion and stir it under anchor stirring at 150 rpm until uniform.

Hydration by active ingredients
but also by the structure of the emulsion.

The ally of thirsty skin!

Combination of two glucolipid emulsifiers MONTANOV™ 68 MB & MONTANOV™ 202:

MONTANOV™ 68 MB (Cetearyl Alcohol and Cetearyl Glucoside)

It can be used to formulate rich, smooth textures with any type of oil phase. Promoter of liquid crystals, it plays a role in maintaining skin moisturization over time.

MONTANOV™ 202 (Arachidyl Alcohol and Behenyl Alcohol and Arachidyl Glucoside)

Promoter of liquid crystals, it plays a role in maintaining skin moisturization over time. Thanks to liquid crystals which contain water, MONTANOV™ 202 helps to keep skin moisturized. Ecocert and Natue approved.

The emulsion is stabilized and thickened by:

SOLAGUM™ AX is a natural thickener and stabilizer (Acacia Senegal Gum and Xanthan Gum)

It allows to formulate non-stringy translucent gels and can be used with hot or cold process.

SEPIPLUS™ K is a clean polymer (Polyacrylate-13 and Hydrogenated Polyisobutene and Polyglyceryl-10 Laurate)

EO-free liquid concentrated polymer, easy to use pre neutralized and cold-processable.

EMOGREEN™ L15 provides a lightweight and non-greasy skin feel, with a powdery finish (C15-19 Alkane (Plant-based & Renewable))

EMOGREEN™ L15 is a non polar and biodegradable, bio-sourced emollient. It's THE alternative to volatile silicone oils. Inert and stable, it can be used in all types of applications, even in extreme conditions (pH, oxidizing/reducing media...).

DUB MCT 5545* (Caprylic Capric Triglycerides)

A non-greasy, natural emollient that provides a silky skin feel.

AQUAXYL™ (Xylitylglucoside & Anhydroxyliitol & Xylitol)

AQUAXYL™ moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted and water loss is reduced (in vitro and in vivo tests prove this efficacy).

MADECASSOSIDE (Madecassoside)

MADECASSOSIDE is a pure active from Centella asiatica that soothes and brings comfort to sensitive skin and atopic-prone skin (in vivo results on psoriasis & atopic dermatitis-prone skin).

ADDITIONAL INGREDIENTS: Phenoxyethanol and Ethylhexylglycerin - EUXYL® PE9010 (SCHÜLKE AND MAYR)/ Caprylyl glycol and Ethylhexylglycerin - Sensiva® SC 10 (SCHÜLKE & MAYR).
